Revised 16/02/10

CIPD Professional Assessment of Competence (PAC) route to Chartered Membership:

If you have five years of management experience with at least three of them in HR, do any of the following thoughts sound familiar?

Exams are not for me! My job is so demanding! What about my Work-Life Balance? I don't want two years of study! I've failed my exams and lost my confidence! I need a formal qualification!

... if so then it may well be worth considering the PAC route to Chartered Membership of the CIPD. If you would like to discuss this in more detail please call one of our team on the number below to discuss your eligibility and then if appropriate, to arrange a free, no commitment diagnostic meeting with one of our PAC advisers.

Level 3 to 5 NVQ's in Management and Learning and Development:

If you have not held a management position for 5 years, but have plenty of practical experience and want to upgrade your level of CIPD membership from Associate to Licentiate, then have you considered undertaking a NVQ qualification?

Cullen Scholefield has considerable expertise in the development and implementation of NVQ's. We were the first organisation to be approved by CIPD to offer the Management and Training & Development NVQ's from Level 3 to Level 5. Successful completion of one of our NVQ's at Level 5 would gain you Licentiate Membership of the CIPD. Please contact our team for further details.
